

**Assistant Professor in Organic Chemistry
Tenure Track Position**

The Department of Chemistry at West Virginia State University invites applications for a tenure-track position in organic chemistry at the Assistant Professor level to start in August 2018.

Responsibilities

The successful candidate is expected to teach organic chemistry, biochemistry, and general chemistry; develop a research program (especially involving undergraduate students), submit grant proposals for extramural funding; and engage in service activities at the Department, College, and University levels. There is a potential for research with graduate students within the Biotechnology Program.

Qualifications:

The candidate must have a Ph. D. in Organic Chemistry or closely related field. Expertise in mass spectrometry is desirable.

Closing Date: January 5, 2018 or until filled

To apply send cover letter, CV, undergraduate and graduate transcripts, statements of teaching and research interests, and names, addresses, telephone numbers and email addresses of three professional references to:
