

# Vision 20/20 UPDATE

## Academic Programs, Research Growth, Faculty Excellence and Rewards and Public Service

Overall Status

Goal: III

Implement five degree programs that may be completed entirely online. Online options should address student interest along with current and anticipated business/industry demand.

Strategy: A

Develop and implement a comprehensive plan to grow and support online offerings

### Recent Key Accomplishments

A comprehensive plan to grow and support online offerings including online programs has been created along with five fully online programs. To support the new online programs, a new Learning Management System (LMS) was adapted. Four of the five 100% online programs started in Fall 2016. The last of the five programs will start in Spring 2017.

### Upcoming Events

A 100% online Master of Education in Instructional Leadership (MEIL) program will start in January 2017.

### Emerging Issues

100% online mathematics courses are needed for several online programs. These courses have not been developed at this time.

### Solutions

Work with the math department to create online math courses to support the programs.

### Upcoming Deliverable/Milestones

| Item:  | Due Date   | Status   | Progress | Comments   |
|--|------------|--|----------|--|
| Start 5 fully online programs  |            |    | 100 %    |  |
| Complete the transition of online courses from Skay to Moodle.       | 01/15/2017 |    | 95 %     |  |
| Complete general education classes necessary for the online programs | 05/01/2017 |    | 90 %     | Create math courses necessary for each one of the degree programs and choices for other areas. |
|  |            |    |          |  |
