## The Four Year Career Planning Guide

### Freshman – 0-29 credit hours - ADJUST

- Learn about the University and the student resources available on campus
- Get to know your professors, advisors, student affairs staff and administrators
- Get off to a good start academically – develop time management, study skills and note taking skills.
- Research the various majors and minors – set up a Sigi3 account (GPS for your career)
- Meet with a career counselor to discuss your personality, interests, abilities, values and goals
