REFUND POLICY FOR STUDENTS WHO WITHDRAW

A student who officially withdraws from the University (i.e. drops all classes) through the Office of Registration & Records or is administratively withdrawn from college prior to completing 50% of a semester is entitled to a partial refund of that semester's tuition/fees. Refund amounts are calculated to the day based on the number of calendar days which have elapsed from the first day of class to the date of withdrawal. The date of withdrawal is the actual date the student notifies the Office of Registration & Records of withdrawal. Any student who withdraws at any point during the semester is advised to consult with the Cashier's Office to determine whether there is a balance owing or a refund due.

Tuition is not adjusted for "reducing a schedule" after the add/drop period.

For a student receiving federal financial aid who withdraws before completion of 60% of the semester, the amount of federal financial aid earned will be calculated to the day according to the same formula. Unearned financial aid must be returned. When aid is returned, the student may owe a balance to the college, to the U.S. Department of Education, or to both. Any student receiving federal financial aid would contact the Office of Student Financial Assistance before withdrawing from college or reducing the number of hours enrolled to determine the impact of these actions on his or her financial aid status.

Refunds are calculated from the first formal day of registration. Refunds will not be processed until after the end of the refund period.
