

2025 APPLICATION

## Graduate Student Climate Adaptation and Mitigation Partners (GradCAMP)

Join a cohort of scholars seeking to explore climate equity and justice through their climate research. Activities include stakeholder engagement, guest speaker presentations, and webinar creation. GradCAMP is seeking graduate students (Masters and PhD) studying climate adaptation and/or mitigation, focusing on working lands and waters in the Northeast. The program is open to those with at least one semester of their academic program remaining.

Please email your completed application to Jorge Vera - [jvera@wvstateu.edu](mailto:jvera@wvstateu.edu)

1. Full Name (add preferred if different):

2. Email:

3. University/College of current degree program:

4. Expected degree:

5. Expected month and year of your graduation:

6. Name of your academic advisor:

7. Email of your academic advisor:

8. What is your area of study?

9.) How did you hear about GradCAMP?

10. What aspects of climate are you most passionate about studying? And how does this relate to working land and waters in the Northeast? (100 word limit)

11. If you are conducting research, please include a title and brief description of your research.

12. Please provide a statement of your career goals, and share how GradCAMP will help to further these goals and benefit your proposed project. (100 word limit)

13. Please describe the climate equity and justice issues that relate to your current or planned research on climate adaptation and mitigation research. (100 word limit)
